# Wildshut Beers

## Wildshut Bio-Perlage

Brut de Bière

Au début, the Brut de Bière is cloaked in a silky golden dress crowned with white foam. A fruity, spicy Riesling bouquet delights the nose while the tongue is surprised by the intertwining delicate sweetness and extremely charming acidity. Fine bubbling carbonic acid is reminiscent of sparkling wine. The great complexity and a beautiful dryness à la fin make a very elegant argument.

**16,6° original wort**

**8 % vol. alcohol**

**0.75 l bottle ..... 29.00**

**1.5 l bottle ..... 59.000**

## Wildshut Bio-Antique

Creativbeer, Strongbeer

Très historique, the original beer unfolds its primeval origin and its maturing period in hand-potted quivris first and foremost with a light opalescence in the glass. Bright citrus notes and nuanced wild yeast aromas set the tone, honey, dates, spices decorate the sensory perception. The freshness of taste with moderate acidity is unique, the aromatic herbal and spicy nuances from the nose to the dry finish are virtuosic. Palate, tongue, throat are en suprise.

**21,4° original wort**

**10,5 % vol. alcohol**

**0.375 l bottle .... 19.50**

# Stiegl-Gut Wildshut

*Wildshut is just how  
we imagine heaven to be:  
A beer garden of Eden.*

Since time immemorial, there have been places that have a special effect on us. The region where Salzburg, Upper Austria and Bavaria come together is where we feel as if in heaven – inspired, in balance and simply happy. And when there's beer on top of that, well, then we are in paradise. Wildshut, Austria's one and only beer estate, is that kind of place.

We cultivate organically grown ancient grain that we malt and roast ourselves – Stiegl is the only brewery to do so. The results are unique ingredients for the Wildshut beers we craft in accordance with traditional methods. In the end, we allow our beers the time they need to mature. Our commitment to take things slowly is verified by not only the unique taste of our beers, but also by the 'Slow Brewing' seal of approval.
